

1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for structural and miscellaneous steel as specified and indicated on drawings.
3. MATERIALS:
A. Structural Steel: AISC A-36, open hearth or electric furnace steel, all regular shapes as described in AISC Specification Manual, unless noted otherwise.
B. Cold-Formed Light Gauge Steel: AISC A-570, Grade 50, Minimum Yield Strength 58,000 psi, and Tubing: AISC A-500, Grade B.
C. Bolted Nuts and Washers: American Standard Regular, as detailed in AISC Construction Manual, fabricated from structural quality steel, ASTM A-307.
D. Galvanized Steel: Class 55-70 galvanized steel.
E. Paint: All steel surfaces shall be painted with two coats of all-weather paint, unless otherwise specified.
F. Shop Primer: All steel surfaces shall be primed with shop primer before painting.
G. Field Primer: All steel surfaces shall be primed with field primer before painting.
4. WORKMANSHIP:
A. General: All work shall conform to requirements of AISC Specification Manual, Part 1 and 2 and the California Building Code, unless otherwise specified.
B. Welding: All welding shall be done by qualified welders or welding operators, and shall comply with requirements of the American Welding Society, Structural Welding Code, and the California Building Code, unless otherwise specified.
C. Erection: Structural steel shall be erected true, straight, plumb and level as indicated on the drawings. Field connections bolted or welded shall be made in accordance with the drawings.
D. Bolting: Bolting shall be done in accordance with the drawings and the California Building Code, unless otherwise specified.
E. Painting: All steel surfaces shall be painted with two coats of all-weather paint, unless otherwise specified.
F. Shop Primer: All steel surfaces shall be primed with shop primer before painting.
G. Field Primer: All steel surfaces shall be primed with field primer before painting.
5. SPECIAL REQUIREMENTS:
A. Fire Protection: All steel surfaces shall be fire protected in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Seismic: All steel surfaces shall be seismic resistant in accordance with the drawings and the California Building Code, unless otherwise specified.
C. Wind: All steel surfaces shall be wind resistant in accordance with the drawings and the California Building Code, unless otherwise specified.
D. Corrosion: All steel surfaces shall be corrosion resistant in accordance with the drawings and the California Building Code, unless otherwise specified.
E. Fabrication: All steel surfaces shall be fabricated in accordance with the drawings and the California Building Code, unless otherwise specified.
F. Erection: All steel surfaces shall be erected in accordance with the drawings and the California Building Code, unless otherwise specified.
G. Painting: All steel surfaces shall be painted in accordance with the drawings and the California Building Code, unless otherwise specified.
H. Shop Primer: All steel surfaces shall be primed with shop primer before painting.
I. Field Primer: All steel surfaces shall be primed with field primer before painting.

SECTION 02000 - EXTERIOR FINISHES
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for exterior finishes as specified and indicated on drawings.
3. MATERIALS:
A. Masonry: All masonry shall be made of high quality materials, and shall be laid in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Plaster: All plaster shall be made of high quality materials, and shall be applied in accordance with the drawings and the California Building Code, unless otherwise specified.
C. Stucco: All stucco shall be made of high quality materials, and shall be applied in accordance with the drawings and the California Building Code, unless otherwise specified.
D. Paint: All exterior surfaces shall be painted with two coats of all-weather paint, unless otherwise specified.
E. Sealant: All exterior joints shall be sealed with a high quality sealant, unless otherwise specified.
4. WORKMANSHIP:
A. Masonry: All masonry shall be laid true, straight, plumb and level as indicated on the drawings.
B. Plaster: All plaster shall be applied true, straight, plumb and level as indicated on the drawings.
C. Stucco: All stucco shall be applied true, straight, plumb and level as indicated on the drawings.
D. Painting: All exterior surfaces shall be painted in accordance with the drawings and the California Building Code, unless otherwise specified.
E. Sealing: All exterior joints shall be sealed in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 03000 - CONCRETE
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for concrete as specified and indicated on drawings.
3. MATERIALS:
A. Concrete: All concrete shall be made of high quality materials, and shall be mixed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Reinforcing Steel: All reinforcing steel shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
C. Formwork: All formwork shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
D. Admixture: All admixture shall be made of high quality materials, and shall be added in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Concrete: All concrete shall be placed, finished and cured in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Reinforcing Steel: All reinforcing steel shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
C. Formwork: All formwork shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
D. Admixture: All admixture shall be added in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 04000 - FORMWORK
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for formwork as specified and indicated on drawings.
3. MATERIALS:
A. Formwork: All formwork shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Bracing: All bracing shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
C. Lining: All lining shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Formwork: All formwork shall be installed true, straight, plumb and level as indicated on the drawings.
B. Bracing: All bracing shall be installed true, straight, plumb and level as indicated on the drawings.
C. Lining: All lining shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 05000 - REINFORCING STEEL
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for reinforcing steel as specified and indicated on drawings.
3. MATERIALS:
A. Reinforcing Steel: All reinforcing steel shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Laps: All laps shall be made in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Reinforcing Steel: All reinforcing steel shall be installed true, straight, plumb and level as indicated on the drawings.
B. Laps: All laps shall be made in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 06000 - METAL DECKING
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for metal decking as specified and indicated on drawings.
3. MATERIALS:
A. Metal Decking: All metal decking shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Fasteners: All fasteners shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Metal Decking: All metal decking shall be installed true, straight, plumb and level as indicated on the drawings.
B. Fasteners: All fasteners shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 07000 - INSULATION
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for insulation as specified and indicated on drawings.
3. MATERIALS:
A. Insulation: All insulation shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Vapor Barrier: All vapor barrier shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Insulation: All insulation shall be installed true, straight, plumb and level as indicated on the drawings.
B. Vapor Barrier: All vapor barrier shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 08000 - ROOFING
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for roofing as specified and indicated on drawings.
3. MATERIALS:
A. Roofing: All roofing shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Flashing: All flashing shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Roofing: All roofing shall be installed true, straight, plumb and level as indicated on the drawings.
B. Flashing: All flashing shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 09000 - PARTITIONS
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for partitions as specified and indicated on drawings.
3. MATERIALS:
A. Partitions: All partitions shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Framing: All framing shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Partitions: All partitions shall be installed true, straight, plumb and level as indicated on the drawings.
B. Framing: All framing shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 10000 - FLOORING
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for flooring as specified and indicated on drawings.
3. MATERIALS:
A. Flooring: All flooring shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Underlayment: All underlayment shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Flooring: All flooring shall be installed true, straight, plumb and level as indicated on the drawings.
B. Underlayment: All underlayment shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 11000 - PAINTING
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for painting as specified and indicated on drawings.
3. MATERIALS:
A. Paint: All paint shall be made of high quality materials, and shall be applied in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Primer: All primer shall be made of high quality materials, and shall be applied in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Painting: All painting shall be done in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Priming: All priming shall be done in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 12000 - MILLWORK
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for millwork as specified and indicated on drawings.
3. MATERIALS:
A. Millwork: All millwork shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Hardware: All hardware shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Millwork: All millwork shall be installed true, straight, plumb and level as indicated on the drawings.
B. Hardware: All hardware shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 13000 - GLASS AND GLAZING
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for glass and glazing as specified and indicated on drawings.
3. MATERIALS:
A. Glass: All glass shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Glazing: All glazing shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Glass: All glass shall be installed true, straight, plumb and level as indicated on the drawings.
B. Glazing: All glazing shall be installed true, straight, plumb and level as indicated on the drawings.

SECTION 14000 - ELEVATORS
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for elevators as specified and indicated on drawings.
3. MATERIALS:
A. Elevators: All elevators shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Hoisting Machinery: All hoisting machinery shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Elevators: All elevators shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Hoisting Machinery: All hoisting machinery shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.

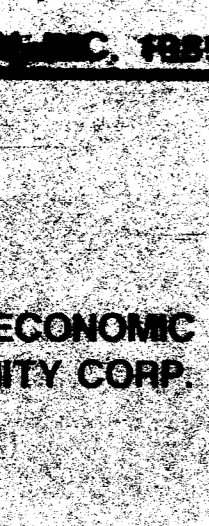

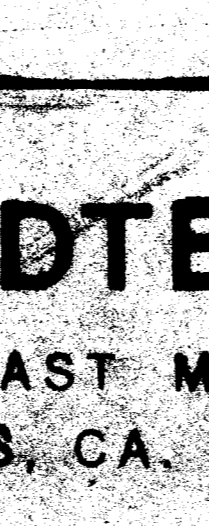

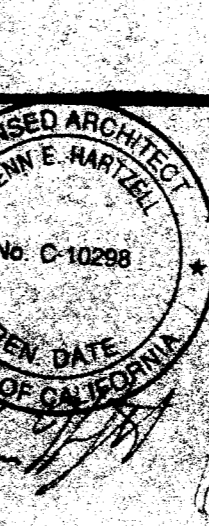

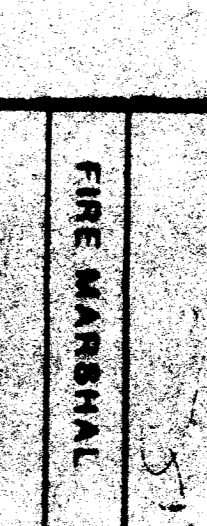

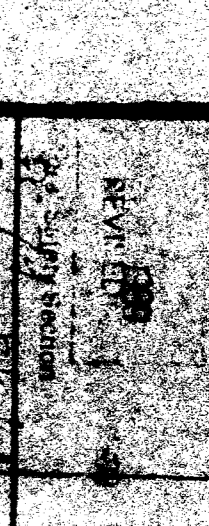

SECTION 15000 - MECHANICAL
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for mechanical as specified and indicated on drawings.
3. MATERIALS:
A. Mechanical: All mechanical shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Piping: All piping shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Mechanical: All mechanical shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Piping: All piping shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 16000 - ELECTRICAL
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for electrical as specified and indicated on drawings.
3. MATERIALS:
A. Electrical: All electrical shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Wiring: All wiring shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Electrical: All electrical shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Wiring: All wiring shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 17000 - TELECOMMUNICATIONS
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for telecommunications as specified and indicated on drawings.
3. MATERIALS:
A. Telecommunications: All telecommunications shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Cabling: All cabling shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Telecommunications: All telecommunications shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Cabling: All cabling shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 18000 - FURNITURE
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for furniture as specified and indicated on drawings.
3. MATERIALS:
A. Furniture: All furniture shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Upholstery: All upholstery shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Furniture: All furniture shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Upholstery: All upholstery shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.

SECTION 19000 - SPECIALTIES
1. GENERAL: The contract documents are fully a part of this section.
2. SCOPE OF WORK: The Contractor shall provide all labor, materials and services required for specialties as specified and indicated on drawings.
3. MATERIALS:
A. Specialties: All specialties shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Accessories: All accessories shall be made of high quality materials, and shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
4. WORKMANSHIP:
A. Specialties: All specialties shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
B. Accessories: All accessories shall be installed in accordance with the drawings and the California Building Code, unless otherwise specified.
